

Education

I started my education in this field in the years 1989 – 1993 at the State High School of Fine Arts in Bydgoszcz (Poland) and I gained there the title of technician of art, with the specialty of arranging exhibitions.

In the years 1993 – 1998 I studied artistic pedagogy at the Fine Arts Faculty of Nicolaus Copernicus University in Torun (Poland). There I graduated and I got my Master's Degree in painting in 1998.

After the graduation I developed my artistic activity in the fields of traditional painting, traditional and digital-graphic, traditional and digital photography.
