

Enrico Fuser firma El Fooser:nato a San Donà di Piave il 22 luglio 1978.Vive e lavora a Bologna.

Le carte nautiche (originali, con appunti e usura del tempo) simboleggiano il viaggio e come su un tappeto volante traghettano cetacei, pesci, strane creature ibride ed evolute verso un mondo dove tutto è bisbigliato e lo sguardo lascia attoniti.

La serie “Whale Zeppelin” è ispirata alla collezione di foto nella quale un mio antenato volava con i dirigibili.

Il lavoro di raccolta e grafica di Ulisse Aldrovandi è stato fondamentale per i miei dipinti.

Citando il grande naturalista bolognese: “Natura Picta”, perché è della natura che nasce il mio lavoro.

Enrico Fuser's signature is “El Fooser”:
born in San Donà di Piave on July 22
1978.

Graduated in agriculture on 1998.

I live and work in Bologna.

Personal exhibitions assets and a participation in the International Biennial of Art in Florence 2003.

The passion for the sea, Jules Verne's stories, the animals and the mystery that surrounds their lives inspires my works.

By the brush are shaped creatures of a world that I dream to see with Darwin eyes.

So I created my cabinet of natural existential curiosities.

Painting on antique nautical charts (original and worn out) symbolize the journey and like on a flying carpet the charts ferry cetaceans, fish, strange hybrid evolved creatures toward a world where all is whispered.

Like Ulisse Aldrovandi's wrote: "Natura Picta".
